Our Residential Learning Initiatives at USC

6 I’s of Community Development
We strive to engage residents in their community through a sequential model: Introduction, Interaction, Involvement, Influence, Investment and Identity.

A-Frame
Complementing the academic mission of USC, the A-Frame actively supports students in their Academic Progress, Awareness of Self and Awareness of Others.

University Housing’s Mission
University Housing creates a sustainable living and learning community that promotes the academic success and personal development of students.

Carolina Core
General Education requirements for all USC undergraduate students comprise the Carolina Core. The Carolina Core serves as the foundation of our work in Residence Life.
